Mehmet Nasim Yılmaz

Location: Istanbul, Turkey Number: +90 5441734873 Date of birth: 23.06.2001 **Github.com/menasy**

mehmetnasim42@gmail.com linkedin.com/in/menasy

I am constantly trying to improve myself and learn new technologies in the fields of software development, data science and especially mobile programming. The projects I wrote with C, C++ and Java, android applications I developed using Kotlin, Xml, Sql and Java, micro service architectures I built with Docker and container technologies and many more projects are available in my github account.

I want to put the technical and theoretical knowledge I have gained so far into practice and while doing so, I want to both add value to your company and move myself further. With the understanding of "There is nothing I don't know, there are only things I haven't learned." I continue to improve myself continuously and never give up. Working in your company will be a great opportunity for me. thank you for your interest and present my regards.

Education Information

- 42 İstanbul Software and Computer Engineering / 2023 2025
- Istanbul Gelisim University Management Information Systems / 2021 2025

Experiences

- Tencent Holdings Limited Server Technician / 01.04.2023 01.05.2023
- Paka Technology System Support Intern / 12.08.2024 23.09.2024

Programming Languages

-	С	(expert)
-	Git	(expert)
-	Java	(middle)
-	C++	(middle)
-	Python	(middle)
-	Bash Script	(middle)
-	Kotlin	(begin)
-	XML	(begin)
-	C#	(begin)

Areas of Interest

- Mobile Application Development
- System Programming
